Samson's MediaOne 10S Active Studio Subwoofer is the ideal subwoofer for all your multimedia needs. Whether you're listening to music, producing tracks, watching videos or gaming, the MediaOne S10 offers premium performance with incredible low-end clarity. It's the perfect addition to any home studio and entertainment center, as well as Samson MediaOne Series active studio monitor setups.

The MediaOne 10S has been designed from the ground up to provide accurate monitoring of low frequencies and produce engaging, clear bass. With a powerful 10" woofer and tuned bass reflex port, the MediaOne 10S will enhance any monitoring setup with an extended low frequency response. In addition, its all-wood cabinet construction and elegant mesh grill assure the subwoofer looks as good in your home studio, living room or den as it sounds.

The back panel of the MediaOne 10S features RCA inputs for directly connecting your music source, as well as RCA outputs to hook up your main monitors. It also features speaker input and output terminals for connecting A/V receivers and/or additional speakers to expand home theater setups. In addition, the MediaOne 10S offers a high pass filter so you can set the variable crossover to your exact preferences.
